Is this what Michael
Douglas had?

I had never heard of HPV related Oropharyngeal Cancer

- 3 out of 4 adults by age 30 have HPV
- 62% of freshman in college
- Men between the ages of 40-60 are the most highly diagnosed - decades after being exposed

Who is Superman
HPV? Where did I
come from?

REMEMBER YOUR WHY!

"I'm so grateful that I answered your phone call that day, because it probably saved my dad's life, as well as my whole family."

"Speaking with you that day and the days after gave me a tremendous amount of strength at the time I needed it."

"I no longer feel alone."

"His story gave us hope when we needed it."

"After reading about your story, I no longer felt alone."
