	2 or more doses any Moderna	Wait 8 weeks	Moderna: 0.25 mL					None recommended		

*Heterologous mRNA products **may NOT** be used for updated vaccines for this age group.
 Mixing and matching Pfizer and Moderna is **NOT** authorized (except in certain situations, listed below).

Interchangeability:

COVID-19 vaccine doses from the same manufacturer should be administered whenever recommended. In the following circumstances, an age-appropriate COVID-19 vaccine from a different manufacturer may be administered:

- Same vaccine not available at the vaccination site at the time of the clinic visit
- Previous dose unknown
- Person would otherwise not receive a recommended vaccine dose
- Person starts but unable to complete a vaccination series with the same COVID-19 vaccine due to a contraindication
